# PRODUCT FEATURES

## 1 Designed for intuitive control of Serato DJ's popular features

The control parts of the DDJ-SR feature knobs and buttons in a layout for easy use with the diverse functions of "Serato DJ" for intuitive and dynamic DJ performances, such as large rubber pads for musical arrangements with dynamic actions, as well as "BIG JOG" enabling scratch performances exactly as the DJ has in mind. All of the buttons and knobs on the DDJ-SR are configured to operate with the "DJ Serato" software, so you can enjoy DJ play straight away simply by plugging the device into a PC.

### PERFORMANCE PADS

#### "PERFORMANCE PADS" for musical arrangements with dynamic actions

Sixteen rubber Performance Pads are assigned to four modes – Hot Cue, Roll, Sample and Slicer – to add a physical element to mashing up tracks. The LED illuminated pads' Velocity Mode controls volume according to how hard DJs hit the pads.

### BIG JOG

#### "BIG JOG" enhances scratching pleasure

The DDJ-SR's BIG JOG ensures DJs always get the scratch response they expect. Plus the controller borrows the backlit from the club-standard CDJs, showing the playback status of the current track for even greater scratch and reverse precision

### 2-CHANNEL MIXER

#### Simple, easy-to-understand "2-CHANNEL MIXER" suited to scratch performances

The two-channel mixer layout enables intuitive mixing and scratching with Serato DJ deck. DJs simply hit the Deck Select button to effortless access decks. The DDJ-SR also features Cross Fader Reverse, so DJs can swap decks from left and right to suit their scratching style

## 2 Performance Pads with "PAD PLUS" add another dimension to DJing

The new PAD PLUS button on the DDJ-SR delivers another layer of control to the Performance Pads – enabling DJs to trigger multiple FX with one button, and automatically sync samples and Hot Cues to the beat. And the BEAT INDICATOR gives a visual representation of the beat.

PAD PLUS has three modes:

HOT CUE ROLL/SAMPLER ROLL	COMBO FX	TRANS PAD
Launch Hot Cues and Samples that are automatically synced to the BPM.	Simultaneously trigger and modulate multiple effects and filters with one pad.	Cut the volume of FX in and out at pre-set intervals

PAD PLUS

#### [Main specifications]

Software	Serato DJ
Input ports	AUX x1 (RCA) MIC x1 (1/4 inch PHONEX1)
Output ports	MASTER OUT x1 (1/4 inch PHONEX1) BOOTH OUT / MASTER OUT 2 x1 (RCA x1) HEADPHONE MONITOR OUT x2 (top surface 1/4 inch PHONE, MiniPin)
